Actual Start Date: **February 01, 2025**

Actual End Date: **August 31, 2025**

Activities Completed:

Activity 1: Conduct medical evaluations and confirm treatment plans for both children (completed: **yes**; notes: Both children received full diagnostic assessments and were provided with specialist treatment plans for retinoblastoma).

Activity 2: Provide financial support for medical treatment and arrange hospital schedules (completed: **yes**; notes: The project funded the medical expenses for both children—VND 80,000,000 for Siu Nữ and VND 70,000,000 for Trịnh Khả Như—and coordinated with the hospital to ensure timely treatment).

Activity 3: Monitor treatment progress and collect supporting documentation (completed: **yes**; notes: Treatment progress was closely monitored, and all required photos, medical updates, and financial documents were collected for reporting).

Beneficiaries Reached:

- Number of individuals/households: **2 children**

- Demographics (e.g., gender, age group, special populations): **Female children, aged**

approximately 2–3 years. One child (Siu Nũ) is from a Ba Na ethnic minority family, and both beneficiaries come from economically disadvantaged households.

Outcome Evaluation:

- Were original objectives met? **Yes** (Yes/No/Partially) - If not fully met, explain why:

- Key achievements and impact:

The project successfully fulfilled its objective of providing financial support for advanced retinoblastoma treatment for both children. Siu Nũ responded well to treatment, with her tumor calcifying—an important indicator of positive progress—which allowed her to retain her eyesight and eliminated the risk of eye removal and complete blindness.

Khả Nhu is continuing her treatment, and both the medical team and the Fund are making every effort to preserve the vision in her remaining left eye.

Overall, the project enabled timely medical intervention, significantly improved the children’s health prospects, and reduced the financial burden on their families. These outcomes contribute to a better quality of life and brighter future for both beneficiaries.
